

GLENFIDDICH

21 YEARS OLD

As it matures for twenty-one years, this complex expression develops some truly intriguing notes. For the final four months, the liquid is finished in casks that once contained premium Gran Reserva Caribbean rum, giving it its unique flavour. I personally select each finishing cask to ensure the highest quality.

COLOUR

The dark gold colour is warm, rich and inviting and in the right light, it reminds me a little of golden toffee.

NOSE

This is a complex whisky, so it's important to take your time and savour the aromas as they develop. As the initial intensity of vanilla sweetness unfolds, you might find yourself sensing bananas, figs, creamy toffee or even a hint of leather.

TASTE

Although our 21 year old starts out softly, it quickly becomes vibrant and peppery with just an element of smoke. As the liquid develops, the vanilla really starts to come through. You might find yourself noticing lime, ginger or exotic spices.

FINISH

Because our 21 Year Old expression is finished in Caribbean rum casks it has a very long, warming, dry and spicy finish. If you warm the glass before tasting, more subtle notes will come out, leading to a beautiful, sweet, long lasting finish.
